

RAL CONNECT – FACILITY LANDING PAGE (DEVELOPER HANDOFF)

SECTION 1: HERO

H1:

Keep Your Beds Full — With the RIGHT Residents

Subheadline:

No high placement fees. No wasted time. No bad-fit move-ins.

Body:

We connect your home with qualified families actively looking for placement in Phoenix—while helping you stay organized and ahead of compliance.

Highlight Line (Bold):

Now Launching — Free Access for Early Homes (Lifetime)

CTA Button:

Join Free as an Early Partner

SECTION 2: PROBLEM

H2:

Tired of Empty Beds and Expensive Placements?

Bullet Points:

- Paying 50%–100% of one month's rent in placement fees
- Getting residents who aren't the right fit
- Wasting time answering calls that go nowhere
- Scrambling to stay compliant and inspection-ready

Closing Line:

You're not alone—and it doesn't have to be this way.

SECTION 3: SOLUTION

H2:

A Smarter Way to Fill Your Home

Body:

RAL Connect was built to simplify how assisted living homes connect with the right residents—without the inefficiencies of traditional placement models.

Bullet Points:

- Keep beds filled more consistently
- Match with residents that fit your care level and environment
- Eliminate traditional high placement fees

- Reduce time spent chasing unqualified inquiries

SECTION 4: HOW IT WORKS

H2:

Simple. Focused. Built for Real Operators.

Steps:

1. Families Reach Out

Families and decision-makers actively searching for care enter the system.

2. We Pre-Qualify and Match

Each inquiry is filtered based on care needs, budget, and location.

3. You Receive Serious Prospects

You're connected with individuals who are actually ready to move forward.

4. You Decide What Fits

You choose who aligns best with your home and care capabilities.

Closing Line:

No chasing. No guesswork. Just better placements.

SECTION 5: REFERRAL NETWORK (NEW ADDITION)

H2:

Connecting You to Real Referral Sources

Body:

RAL Connect is being built to work alongside the people who influence placement decisions every day:

Bullet Points:

- Hospital discharge planners
- Case managers
- Social workers
- Families actively searching for care

Closing Line:

Our goal is simple—make it easier for the right people to find the right homes, without the usual delays and confusion.

Subtle Reinforcement Line:

As the platform grows, this creates more consistent opportunities for homes that are active and engaged.

SECTION 6: COMPLIANCE HUB

H2:

Stay Organized. Stay Prepared. Stay Ahead.

Body:

We're also building a Compliance & Manager Support Hub designed to simplify day-to-day operations

and reduce stress around regulatory requirements.

Bullet Points:

- Track key compliance responsibilities
- Stay updated on important changes
- Be better prepared for inspections
- Reduce last-minute scrambling

Closing Line:

Built to support your manager—not replace them.

SECTION 7: BUILT WITH LOCAL OWNER

H2:

Built With Real-World Input — Not Guesswork

Body:

RAL Connect was developed alongside local Residential Assisted Living owners to ensure everything inside the system is practical, relevant, and focused only on what actually helps.

Bullet Points:

- No unnecessary features
- No added complexity
- Only what makes your operation easier

SECTION 8: VIDEO

H2:

See How It Works

Developer Note:

Embed video player here (YouTube/Vimeo). Keep responsive and centered.

SECTION 9: EARLY ACCESS OFFER

H2:

Now Launching — Free for Early Partners (Lifetime)

Body:

We're currently rolling this out in the Phoenix area and inviting a limited number of homes to join early.

Bullet Points:

- Free lifetime access for early partners
- Priority placement opportunities
- Ability to provide input as the system evolves

Warning Line (Bold):

This will not be free long-term.

SECTION 10: FINAL CTA

H2:

Join as an Early Partner — It's Free

Body:

Be part of a better way to fill your beds, improve resident fit, reduce costs, and simplify operations.

CTA Button:

Join Free Now

● SECTION 11: FOOTER TRUST LINE

Small Text:

Built to support—not replace—your team. Focused on better outcomes for both residents and operators.

DEVELOPER NOTES

- Keep layout clean, white background, minimal clutter
- Use card sections or subtle dividers between sections
- CTA buttons repeated at top and bottom
- Mobile-first optimization is critical
- Video section should not autoplay
- Form integration should connect to CRM or email capture
